Volusia TPO .......................................................................................................................... 82
Florida’s MPOs serve a wide range of population sizes with the smallest MPO serving a population of 110,000 people to the largest MPO serving an area of just over 2.5 million people (Note: population figures reflect only the area served by an individual MPO and may not correspond with Census figures or population figures used to determine Transportation Management Areas). The most common MPO size is in the band of 200,000 – 500,000 people. Nearly one-quarter (23 percent) of MPOs in Florida serve a population of over 1 million people while just over one-quarter (27 percent) of MPOs serve a population of below 200,000 people.
There are 26 MPOs in Florida with a total of 374 Governing Board voting members and a range of between 5 and 23 voting members (please note that the Miami-Dade Urbanized Area MPO is permitted to exceed the 19 member cap established in state statute). Section 339.175(3)(a), F.S. states that, “All voting members shall be elected officials of general-purpose local governments, except that an M.P.O. may include, as part of its apportioned voting members, a member of a statutorily authorized planning board, an official of an agency that operates or administers a major mode of transportation, or an official of Space Florida.” Municipal elected officials (mayors and city council/commission members) occupy 53 percent (199) of voting MPO Governing Board seats while county commissioners occupy 40 percent (149). The remaining 7 percent (27) of voting MPO Governing Board seats are occupied by an assortment of elected and appointed officials, the majority of whom represent independent modal agencies (transit authorities, airport/seaport authorities, etc.).
There are 26 MPOs in Florida with Governing Board memberships ranging from 6 to 29 members including both voting and non-voting members. Statewide, there are a total of 425 MPO Governing Board members, 374 of whom are voting members. The average size of an MPO Governing Board in Florida is approximately 16 members – 14 voting members and 2 non-voting members. MPOs serving areas over 1 million people tend to have the largest boards – an average of 18 voting members and 4 non-voting members. MPOs serving populations below 200,000 people tend to have the smallest Governing Boards – an average of 11 voting and 2 non-voting members.
Section 339.175(3)(a), F.S. states that, “The Governor, in accordance with 23 U.S.C. s. 134, may also provide for M.P.O. members who represent municipalities to alternate with representatives from other municipalities within the metropolitan planning area that do not have members on the M.P.O.” These rotating MPO Governing Board seats allow groups of municipalities (typically smaller population municipalities – often grouped by geographic proximity) to more fully engage in the MPO process by allowing them to rotate on and off the MPO Governing Board as a full voting member – taking turns representing the interests of the group. In all, approximately 38 percent of MPOs in Florida (10) have made provisions for one or more rotating voting Governing Board seat.
Conventionally, MPOs have either been considered independent or hosted entities. Research now shows that MPO organizational structures span a continuum ranging from fully independent freestanding MPOs to MPOs that are so integrated with their host agency that they form a single, indistinguishable all-in-one agency. Of the 26 MPOs in Florida, a majority (15) are hosted MPOs while the remaining (11) MPOs are independent of a hosting agency. The most common organizational structure in the state is the Dual Purpose MPO. Over the past several years, MPOs in Florida have undergone a noticeable shift from the hosted to the independent category, with the majority of those falling in the Leaning Independent MPO category.

### MPO Organizational Structures

**All-in-One Agency** - The agency does not differentiate between MPO functions, non-MPO transportation functions, and all other functions of the broader agency.

**Dual Purpose MPO** - The host leverages MPO planning funds to maintain transportation planning staff that performs both MPO planning and host agency transportation planning functions.

**Component MPO** - MPO functions are separated from most functions of the host, but remains a division of the umbrella agency.

**Leaning Independent MPO** - The MPO receives some services from one of its member agencies under a severable contract.

**Freestanding Independent MPO** - The MPO must meet all of its own operating needs.
There are a combined total of 220 MPO staff members in Florida. The average ratio between individual MPO staff members and the population served (based on self-reported data) is one MPO staff member per 76,123 people served. There was a negligible difference between hosted and independent MPOs. It is important to keep in mind that MPOs require a minimum number of staff members to attend to the responsibilities of an MPO, regardless of the size of the population being served.

### VOTING AND QUORUM STRUCTURE

Does the MPO Board have a weighted voting structure? ........................................ No

Number of members required to form quorum ................................................. 9

**Supporting MPO Committees:** Technical Advisory Committee (TAC), Citizens’ Advisory Committee (CAC), and Transportation Disadvantaged Local Coordinating Board (TD-LCB)
STAFFING ARRANGEMENTS

Is the MPO hosted by another agency or independent? ................................................................. Hosted

Where does the MPO fall along the continuum below? .............................................................. Dual Purpose MPO

Legend

All-In-One Agency - The agency does not differentiate between MPO functions, non-MPO transportation functions, and all other functions of the broader agency.

Dual Purpose MPO - The host leverages MPO planning funds to maintain transportation planning staff that performs both MPO planning and host agency transportation planning functions.

Component MPO - MPO functions are separated from most functions of the host, but remains a division of the umbrella agency.

Leaning Independent MPO - The MPO receives some services from one of its member agencies under a severable contract.

Freestanding Independent MPO - The MPO must meet all of its own operating needs.
